

## **Integrated Management System Policy**

Ion has established an Integrated Management System which brings together all quality management, occupational health and safety management and environmental management standards. The Company wide integrated management system meets all legal and statutory requirements and is now in operation. The system defines the commitments of the Company and incorporates procedures that detail the methods employed to ensure customer satisfaction

For the efficient and successful operation of the Company, Ion is aware of the importance and worth of this system and from the belief that continuous improvement will undertake to maintain, develop and further improve our integrated management system.

It is the Policy of the Company to provide its customers with a service that fulfils their specified requirements and Ion will make every effort to ensure all parts of the Company are managed as efficiently and effectively as possible in order uphold customer's expectations and meet market demands.

Ion will abide by all relevant legislation, standards, guides and other documents requirements to which we undertake and subscribe to.
